Amman Urban Observatory (AUO):

About AUO:

Amman Urban Observatory (AUO) is a department at GAM. AUO was reactivated and start producing urban indicators in 2008. AUO has a team of statisticians and researchers. The researchers collecting row data from AUO's Stakeholders.

AUO producing Amman Urban indicators (AUI) according to the following agendas

Development of work stages in AUO:

Producing Indicators:

- 1- Manually: Used manually calculations in indicators computations.
- 2- 'Access' database: Building a database using 'Access software'.
- 3- Visual Basic (VB) App. : AUO team built a VB application with access database.
- 4- Oracle 9 Database: AUO team built a Database using Oracle 9.
- 5- Oracle Apex (OAP): AUO team built a Database and App. using Oracle Apex.

AUO Methods in collecting Raw Data:

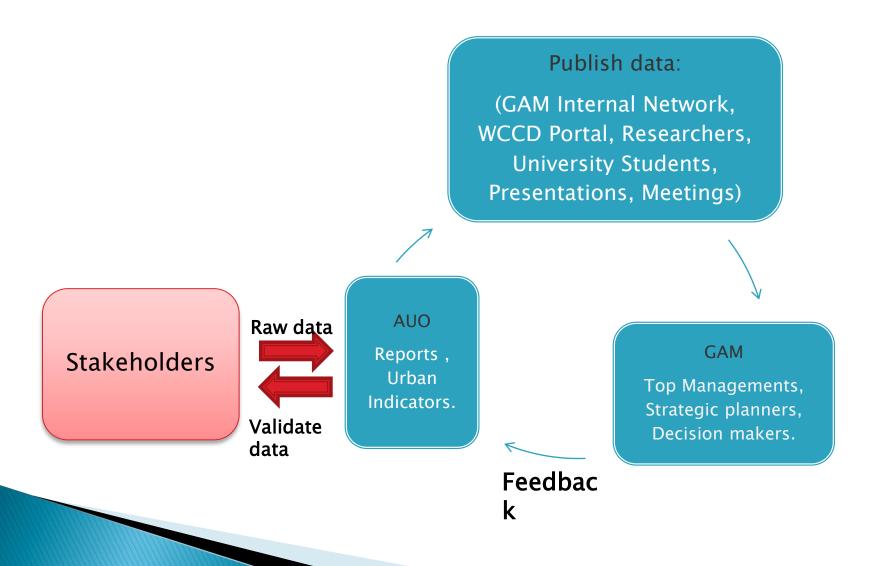

AUO is collecting Raw Data from partners (Government sector, Private sector, NGOs) through stakeholders' network:

- Field Visiting to AUO's partners.
- partners' portals websites &reports
- E-mail.
- Phone calling.

AUO's Stakeholders:

Data Cycle in AUO:

Data management in AUO:

When designing the Database; AUO considered the below flow chart.

Data management at AUO level:

- 1. Raw Data Collection: Stakeholders, Partners.
- 2. Raw Data Classification & Analysis.
- 3. Producing Urban Indicators at Amman City Level.
- 4. Publishing Urban Indicators.
- 5. Benchmarking.

Amman Urban Observatory Applications' Categories:

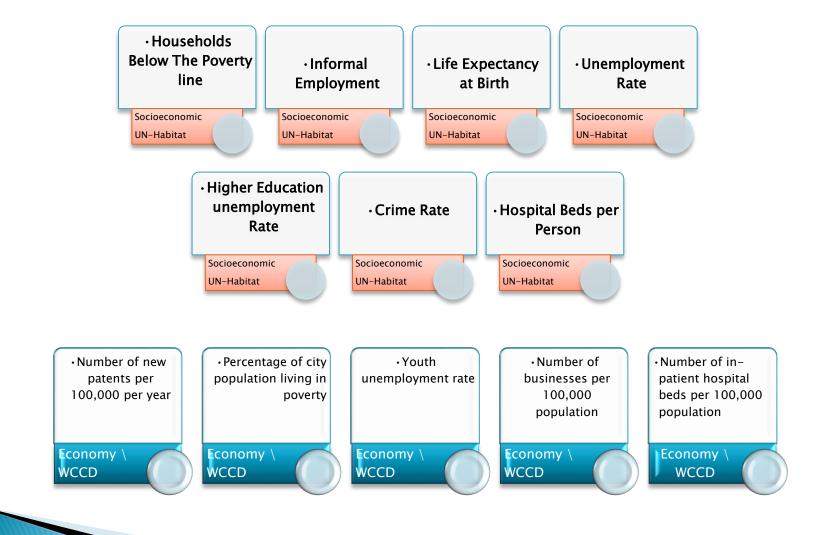

APEX Application for Producing Indicators in AUO:

Themes

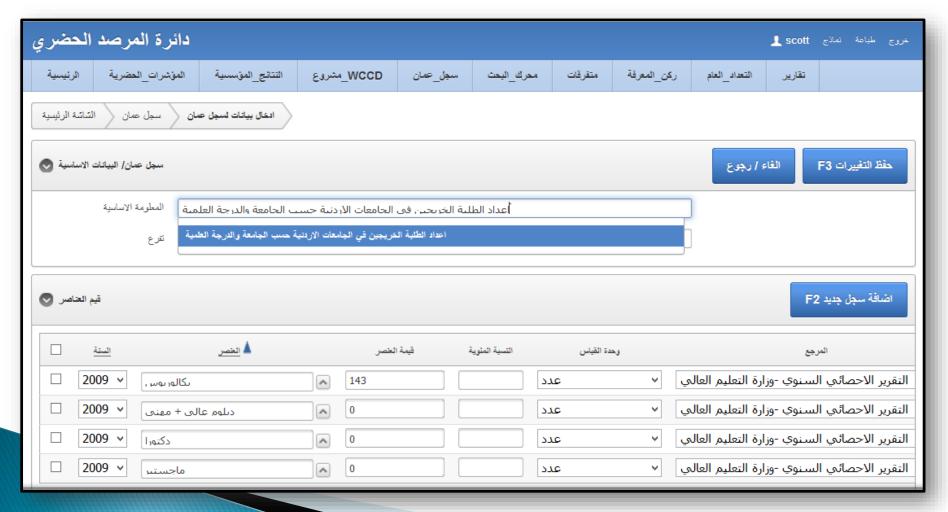

- 1) Demographic.
- 2) Health.
- 3) Education.
- 4) Safety.
- 5) Technology and innovation.
- 6) Transportation.
- 7) Infrastructure.
- 8) Finance.
- 9) Energy.
- 10) Waste water.
- 11) Solid waste.
- 12) Water.
- 13) Environment.
- 14) Social and economic.
- 15) Culture.

Economic \ Socioeconomic Indicators :

Amman record:

A category that records all Amman's statistical data (demographical, social, economical, educational, health and safety, ...) at Amman city level.

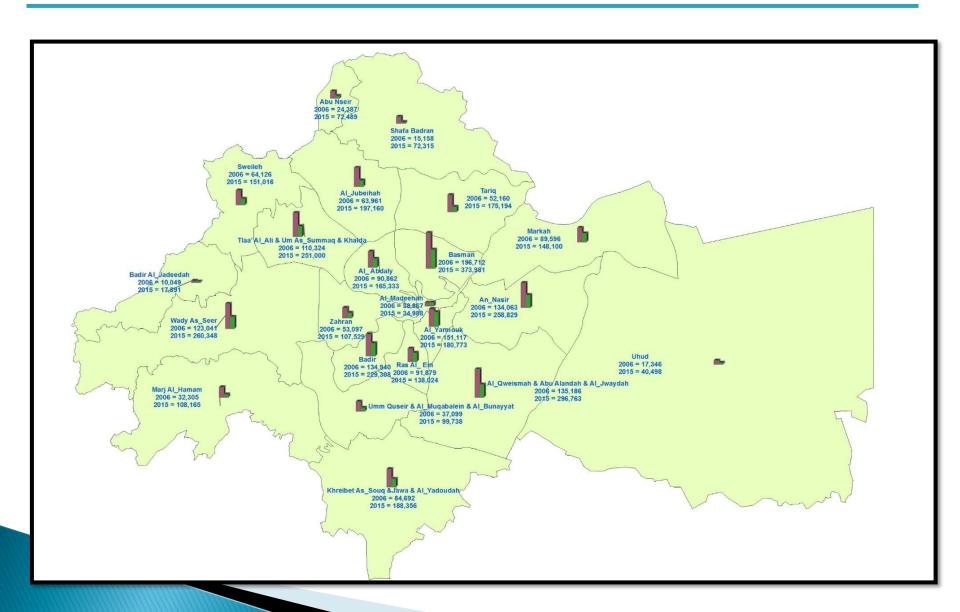

AUO - OAP App.:

With OAP, there is a simple way for end user (Planners, Decision makers, researchers and citizens) to design their own reports.

Economic Indicators Produced by AUO:

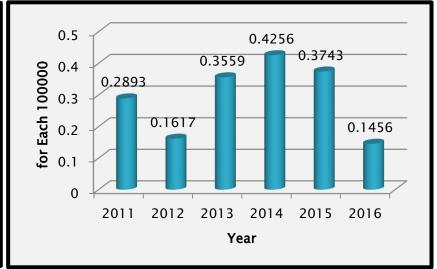

Unemployment (%)

Higher Education unemployment Rate (%)

Number of businesses per 100,000 population

Number of new patents per 100,000 per year

Deploying data and indicators:

AUO deploying Data to:

1 – International Portals like (World council on city data – WCCD portal https://polar-fortress-2667.herokuapp.com/).

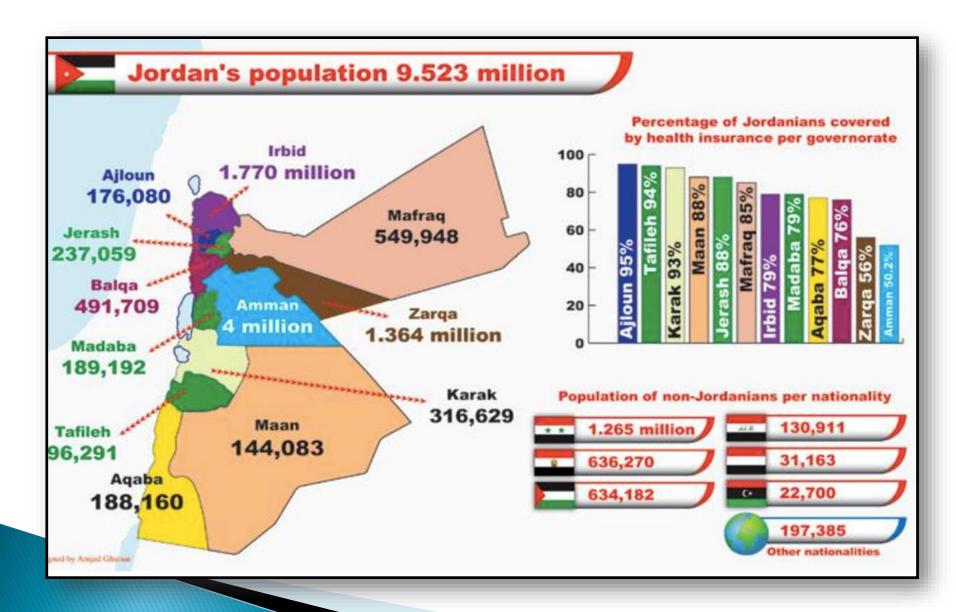

2- GAM Intranet.

3- Issuing Annually Reports. Stakeholders and partners and researchers have access to the reports.

Refugees in Jordan:

Refugees numbers in Amman districts:

Chart shows the number of refugees in Amman districts according to 2015 census.
